## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election with traverse of claims 8-16 in the reply filed on October 11, 2005 is acknowledged. The traversal is on the ground(s) that the examination would not be a burden on the examiner. This is not found persuasive because multiple separate searches would be required in order to completely search both the method and apparatus as claimed, creating undue burden on the examiner.

The requirement is still deemed proper and is therefore made FINAL.

The cancellation of claims 1-7 is acknowledged.

### ***Drawings***

The drawings were received on October 11, 2005. These drawings are acceptable.

### ***Allowable Subject Matter***

Claims 8-16 allowed.

The following is an examiner's statement of reasons for allowance:

As to claim 8, the prior art of record, taken alone or in combination, fails to render obvious an apparatus for spatially heterodyned holography including: a rotatable pixilated detection device that is rotatable about an axis substantially normal to the focal plane of said detection device, in combination with the rest of the limitations of claim 8.

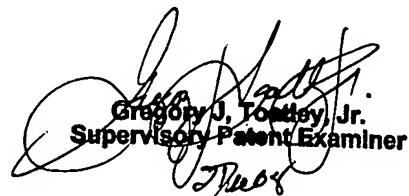

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick J. Connolly whose telephone number is 571.272.2412. The examiner can normally be reached on 9:00 am - 7:00 pm Monday-Thursday.
